
Asif Maner

Java Developer

Portfolio: - https://assii27.github.io/Asif_Portfolio/

Mob No: 7972828315

Email ID: asifmaner9902@gmail.com

City: Pune

Profile:

Java Developer with over 4 years of experience in designing, developing, and maintaining scalable backend applications in the **Payments** and **Switching** domain. Possess strong hands-on expertise in Card Management Systems (CMS), transaction processing, card issuance, and secure financial data handling.

Proficient in **Java**, **Spring Boot**, **Microservices** Architecture, **Hibernate**, **Kafka**, **RESTful** APIs, and **MySQL**, with a solid understanding of **SOLID** principles and clean coding practices. Experienced in debugging, root cause analysis (**RCA**), and providing production support in high-availability environments.

Recognized as a quick learner with a strong focus on performance optimization, code quality, and continuous improvement. Committed to delivering reliable, secure, and high-quality solutions within tight deadlines while staying updated with the latest industry trends and technologies.

Professional Experience:

Software Developer-Java | Euronet Services Pvt Ltd, Pune.

March-24 to Nov-25

Payment Domain – Issuer Side of Switch System.

Roles & Responsibilities

- Developed and enhanced **Java**-based backend modules for **Switch System** (REN Product) in the **Payment Domain**.
- Worked on **Card Management System** (CMS) modules including card issuance, transaction processing, and statement report generation.
- Involved in payment processing flows ensuring smooth **real-time** transaction operations.
- Performed data transformation using XML/XSL/JSON and handled data mapping for fintech and banking formats.
- Participated in debugging, RCA (**Root Cause Analysis**), defect fixing and issue resolution in UAT and Production environments.
- Coordinated with senior developers, technical leads for requirement gathering, analysis, and clarifications.
- Performed **unit testing**, module testing and ensured quality delivery of assigned components.
- Worked on issuer transactions authorization routing and end-of-day settlement.
- Prepared Low-Level Design (LLD) with class diagrams and contributed to technical documentation.
- Actively worked in **Agile/Scrum methodology** – participated in sprint planning, daily standups & continuous improvement cycles.
- Used **IntelliJ** IDEA, STS, Git, Git Bash, **SourceTree** & **Jira** for development, version control and task tracking.

Banking Domain

Roles & Responsibilities

- Developed and maintained **Java-based backend** modules for Banking Admin Application used by banks to manage and update customer information.
- Built customer and corporate registration modules and supported complete registration workflows.
- Designed and developed menu/submenu management features for service configuration and dynamic UI control.
- Implemented secure transaction logging to record and monitor all banking activities.
- Designed and implemented business logic using Java, **Spring Boot**, Hibernate and **OOP principles** to ensure system reliability and scalability.
- Managed **MySQL database** operations including query optimization, stored procedures and data handling.
- Debugged, analysed defects and performed RCA to improve system performance and stability.
- Worked on application maintenance, feature enhancements, and production support activities.
- Used Git for version control and Jira for sprint planning, task tracking and workflow management.

Technical Skills

Programming Languages: **Java (8+)**

Frameworks & Architecture: **Spring Boot, Hibernate / JPA, Microservices Architecture**

Messaging & Streaming: **Apache Kafka**

Web Technologies: **RESTful API Development & Integration**

Database: **MySQL**

Data Formats & Processing: **JSON, XML**

Development & Collaboration Tools: **IntelliJ IDEA, Spring Tool Suite (STS), Git, GitHub,**

Git Bash, SourceTree, Jira

Education (Graduation)

Bachelor of Engineering (B.E.)

Shivaji University, Kolhapur

Score: **68%**

(First Class with Distinction)

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief. I assure that if given an opportunity to work in your organization, I will put in my best efforts to contribute to the growth of the company.
